CLERK: LB 1178A introduced by Senator Hillman appropriates funds to implement the provisions of LB 1178, Mr. President.

SPEAKER BAACK: Senator Hillman.

SENATOR HILLMAN: I'd repeat, I know it's serving on Appropriations we're always looking at money and what it is we can do, but I do believe in this instance \$12,000 is all they are needing is for a little additional staff time to be able to record and on a computer those donors so that that information can be provided for I believe the state retrieval organization. And I think it will be money again that is well worth it considering the small amount that the state would have to contribute to a very, very big and helpful program to people not only in Nebraska, but clean across the country. So I would urge the advancement of the fiscal bill also. Thank you.
